

Join our Learning Institute at APHA 2022

Improving Health Equity through Cultural Humility Training for Public Health Professionals

Learn the tenets of cultural humility and how to apply these towards respectful and effective engagement with diverse communities in your public health work.

We will discuss:

- Defining Cultural Humility
- Implicit Bias: Responses and Impacts
- Effective Communication
- Building Collaborative Relationships
- Cultural Humility in Practice

This learning institute will take place on
Saturday, November 5th from 9am-4:15pm

Registration information
can be found here:

This training has been adapted from a training co-developed and co-delivered by educators at UCSF, UCLA, CDPH* and 6 Community Based Organization's across California for the Virtual Training Academy. It has been enhanced to include elements that serve all public health work beyond COVID-19 contact tracing.
